A delightful series starter!

By Nikita @ Plot Twist Reviews

Married young to a man almost three times her age and widowed only a few years later, Lady Isabel Avenbury is used to taking care of others. After the death of her parents, she took in her two younger sisters and raised them almost as if they were her own children. But while she may possess good mothering skills, Isabel is barren and cannot have children of her own. And although Isabel is only 28, she is considered too old by Society's standards to marry any of the Season's eligible bachelors. But Isabel isn't looking to marry. Instead, she plans to take a lover just as soon as she can marry off her last single sister.

Seth Rowland, Marquis of Lyndham, needs to marry as quickly as possible and start producing heirs to please his mother and ensure the title remains in the immediate family. Seth had no interest in marriage until his older brother tragically died, but now his mother is throwing a house party filled with the Season's most eligible females and Seth is expected to marry one of them. He cringes at the thought of tying his life to any one of the flighty, unintelligent cardboard cutouts currently parading around his house. That is, until he see

Isabel step out of the carriage with her sister.

Seth knows he can't touch her and Isabel must focus on finding her sister a husband, but when Seth catches her stealing the Season's most talked-about book -- The Ladies Book of Pleasures -- from his library, their attraction ignites a love affair that refuses to bend to Society's rules.

I really like Isabel's character. As women, I think it's very easy for us to get caught up in taking care of those around us to the detriment of ourselves. Isabel had to marry a man she didn't love in order to provide for her two younger siblings. Like many women, she sacrifices some of the things she wants from life to ensure that those she loves don't have to go without. And although Isabel embraces her role with upbeat optimism that everything will work out, she is also realistic about how Society views her inability to have children and the limitations placed on her as a result. It's a universal theme that fits seamlessly into this story.

It is also the driving catalyst of conflict between Isabel and Seth. Theirs is a beautiful love story because readers see from the start the attraction they feel towards each other, know that Seth has felt that attraction since before Isabel was married but was unable to pursue her since was already betrothed, and they now must contend with Seth's pressing need for children and Isabel's inability to give them to him. The romance is sensual, heartwarming, and made exciting by Isabel and Seth's attempts to conceal their affair from the multitude of guests in and around the house. (Everything is more fun when you think you're being sneaky about it!) And yet, Seth and Isabel struggle with their feelings for one another believing that they must conform to Society's expectations regarding marriage and children. Watching them try to figure out the difference between "what is right" and "what is right for them" is such a sweet, uplifting journey. You really want to keep reading well past "The End."

Overall, A Matter of Sin is a delightful series starter and I can't wait to read Grace and Jacinda's stories too. I highly recommend reading this book -- Passionate, tender, and comforting, you just know that Seth and Isabel are going to craft a beautiful HEA for themselves.

Good Start to New Series

By Sheila M

A MATTER OF SIN is the first book in The Ladies' Book of Pleasures series. It is the story of Lady Isabel Avenbury who has decided that once her younger sister has married that she will take a lover. At a house party, Isabel meets Seth Rowland, the Marquis Lyndham. While the two share a strong attraction, Seth is the last male in his family and must marry and beget an heir. Isabel sadly knows that she cannot be Seth's bride because she is already failed to produce an heir for her deceased husband.

The romance between these two is sweet and easy. Seth and Isabel are clearly well matched. There is little drama keeping these two apart. Most of the book is centered upon their developing relationship. I found myself anticipating the books to follow because I was very much interested in the story of Isabel's friends. There is also an intriguing story about the book that plays a pastry in the sexual escapades of the characters.

A Matter of Sin

By AngDia

Great start to a new Jess Michaels' series. I have read a lot of Jess' books and have loved everyone of them. This one is no exception. This book is a little different from her other series. There are no tortured heroes/heroines. Isabel and Seth are truly nice people and the book is very sweet (but do not think this is all

sugar, there is definitely spice). I really enjoyed reading how they grew to love each other through talking (it was not all about lust). Isabel always puts others before herself almost to the detriment of her relationship with Seth. Seth, with a little help from his friend Jason, realizes that he must do what his heart desires, not what society dictates. Their scenes are lovely reading and a lot of them will make you smile.

I also loved the secondary characters (Jason and Grace). Jason is a libertine but is a true friend and shows an emotional side. One of the best scenes in the book is Jason berating Seth on his treatment of Isabel. I look forward to Jason's book. I have a feeling it will be very emotional. Another character who captured my attention was Grace. She is a friend of Isabel's, along with Jacinda, and her situation is unclear in this book. She is obviously a very strong woman and I look forward to her book.

Also, the question of who wrote "The Ladies Book of Pleasures" is intriguing. I have my suspicion. Will be interesting to find out.
