Cookie Academy 2 book

By Vanessa S

The book would be good if the photo's were better. it looks like someone took the original book and put it on a copy machine with very low ink, and some of the pictures you can't even see what the decorator is doing. I would say it's a poor quality book, if I had seen this before I purchased it I probably would not have. I like all of my books to be clear and bright so I can read and see the instructions clearly.

I was a little sad to see it come this way. I'm on the fence about returning it.

Update: the author contacted me regarding the cond. of the book and let me know that it was probably a defective book since

Amazon is the one that makes the copies to sell. She asked me to please return it to get a better one. I do own another one of her books and it's in perfect photo cond. I felt it was really nice of her to contact me , I know she doesn't want her books to be sent defective. I look forward to her other books, she is an amazing artist.
