Comprehensive Overview

By L. Molettiere

DK Eyewitness Books: World War II is a short and comprehensive overview of the main events that occurred during WWII. There are a lot of photographs, interesting details, and it is laid out in an engaging manner. It says ages 8-12, however, my 5 year old has enjoyed the bits we've been covering with our Classical Conversations history. The photographs allow for even the youngest students to learn, understand,

and appreciate the significance of the events covered in the book. I have learned several things as well, and really enjoy the fact that my 5 year old will sit down and look through a history book with no prompting from me. This is an awesome resource for anyone studying World War II.

*We were given a copy of DK Eyewitness Books: World War II for review purposes. No other compensation was received, all opinions are my own, and I was not required to post a positive review. *

Interesting for All Age Groups

By Jean Klett

I enjoyed this book a lot -- especially since it has many photos in addition to written information. It is stated that this book is for those who are 8 - 12 years old, and it's true that this book is suitable for that age group. However, I'm 62 and learned a lot from this book. As the saying goes, "A photo is worth a thousand words!"
