Very complex for an INTRO to Sociology!

By Angel at HypnoticBlend dot Blogspot dot Com

I'm reading this book currently for an Intro to Sociology college class. It scarcely covers topics, but expects you to answer complex review questions. With very few examples to open up my range of thinking on each topic & subtopic, my own thinking is severely limited within the contexts of this book. I wouldn't recommend it, & if you DO have to get it, get a used copy. The white cover gets dirty extremely easy & pages are just as easily damaged by simply flipping back & forth through them.

Served the purpose

By itsme

It served its purpose and I got it so cheap I didn't feel bad about marking it all up. Hated the class even if I did get an A though
