Naturally, it will certainly not obligate you to take numerous pages. Just page by web page depending on the time that you have to review [*Fifty Watches That Changed The World \(Design Museum Fifty\) By Alex Newson, Design Museum*](#)

FIFTY WATCHES THAT CHANGED THE WORLD (DESIGN MUSEUM FIFTY) BY ALEX NEWSON, DESIGN MUSEUM PDF

The watch has long been a favorite of the design world - both as an indication of the wearer's style and as a test of the designer's ethos and aesthetic. From the early efforts of Le Corbusier and Louis-Francois Cartier to the advent of the digital era and the arrival of the smartwatch, the Design Museum examines the 50 most important and eye-catching examples of all time.

A Concise Overview!

By protech

This book is an excellent beginner's guide to (as the title suggests) the top 50 watches that changed the world. They include watches such as the Rolex Submariner, Omega Speedmaster, and the Cartier Santos. I've recently dived back into my interest in horology, and collecting of watches. It is not an in depth book, but provides a paragraph or two with nice photographs of these influential timepieces. If this interests you, I highly recommend this book to all horological lovers.

Not worth the money-nor time reading it

By CeliacDude

Very disappointing. As a new watch collector, I was hoping for a more detailed, image-rich coffee-table style book. This appears to have been put together in a rush, settling on imagery that was easily available and accompanied by copy that doesn't really tell a great story. To be fair, it's a decent book, but not worthy of the powerful title. The color of the book cover for this themed museum series sums it up best.

Very nice review

By Manuel Diaz Carnot

Very nice review. I totally agree with the chosen watches. There are a few non accurate data, though. For example, Neil Armstrong wasn't wearing his Omega Speedmaster in his first walk on the moon since he left it in the module as a backup. Buzz Aldrin did. Some important data are missing too. For example, in the design of the first Casio (not Cassio) G-Shock, they considered it should accomplish three 10's: 10 years

battery-life, 10 bar water-resistance and should survive a 10 meter fall. Otherwise, the book is a must have for wrist watch enthusiasts.
