Beware, Beware...This is a cliff hanger!!!

By Trekkie

Very disappointing. I feel cheated. It was not mentioned in the preview that it was a serial, so I am giving you fair warning.

The writing was OK for a first time author, but it could have been smoother. Editing wasn't the best but, it was better than in most new inde books. Some of the language sounded strange to me. I tried to discover something about the author. I was unable to do so. It may be because of her nationality that the expletives sounded off to my ear.

The story was interesting but, I doubt if I will buy any more in this serial. I will have probably forgotten this book before the sequel comes out.

I didn't expect to but the characters draw you in!

If I didn't know any better, I'd say stripping is the best job ever.... but tis' not always perfect.
