WOW

By NLD

This is a powerhouse of a book. If you love logical books you should read this. This book is full of charts and graphs which make following easier. This is a book every scientist should read. It is a wake-up call to mankind. One of the most interesting chapters is Chapter 8 "The Story of Jmmanuel". If we had more critical thinkers like Dietmar Rothe, the world would be a better place.

Applies an intensely personal approach

By Midwest Book Review

With In Search Of Truth And Freedom, Dietmar Rothe provides the reader with an impressive, scholarly, thought-provoking examination of the purpose of life and humanity's role in the cosmos. Dietmar Rnthe is no New Age apologist or dabbler in fringe sciences. He applies an intensely personal approach to surveying and assessing the central, fundamental questions arising from the universal mysteries of life, truth, metaphysics and existence. In Search Of Truth And Freedom offers invaluable, highly recommended insights that will be of intense interest for students of spirituality, personal responsibility, and life's meaning.

Great read but very detailed

By A. Szwed

So much to say but very little time. I loved the life story of the author, but when it came to the scientific stuff I was lost. The rest of the information about Creation is just fantastic. You can see his youtube video if you search Talmud Jmmanuel. Better yet, get a copy of Talmud Jmmanuel (4th edition) and learn the truth.
