This book is for all those who are searching for meaning in life. For those who are trying to make sense out of a seemingly meaningless world. For those who ask themselves: What is it all about? This book is also for those who have picked up the self-study course entitled A Course in Miracles (ACIM) and then put it down because what it is saying is just too difficult for them to believe, because what it is saying is unsubstantiated by other belief systems. In writing this book I am hoping to show the reader that the teachings of ACIM are not that inconceivable or far-fetched and that there are many sages around the world whose teachings are very similar. I am a student who has spent many years searching, studying and groping in the dark for a light to switch on that would make it all clear to me. I found that light not so long ago when I began to study A Course in Miracles. If I am able to share some of that light with others then I will be honoured and joyful and my life will finally begin to make sense to me. So this book is about shedding a little light on what to me is the only thing that does make sense in this world around us - illusion! It's All An Illusion! is a comparative study of the topic of illusion as expounded in A Course in Miracles, Buddhism, Hinduism and other belief systems. In the book I explore the topic of illusion in great detail and have included numerous quotations from other books and scriptures. I have also included interviews with a Hindu teacher, two Buddhist monks and ACIM teacher I would classify It's All An Illusion! as a self-help/MBS book and it is aimed at people who may have picked up ACIM and thought that it was all too far-fetched to believe. It is also aimed at people who are interested in MBS books but who may know nothing about ACIM. I also think it would be useful to ACIM followers because the teachings of ACIM are simplified and explained in the book.

Great book. Very well written and easy to read

By David Lax

Great book. Very well written and easy to read. The conclusions Raveena Nash makes resonate very strongly with intuitive beliefs I have had for many years. I've always known there is something very unreal about our existence here on earth and that I am a spiritual being. I don't know that Raveena (or anyone) has the truth 100% correct, but her book is very compelling and thought provoking. Highly recommended to open-minded truth seekers.

A pleasure to read

By Lisa Riddick

This attractively produced large format book is a pleasure to read. It is a thought-provoking investigation of the idea that the material world is an illusion, and how we can be helped by that understanding. Raveena Nash has enlivened the book with accounts of her own experiences and insights, making it a very readable introduction to the subject.

Instead of just assuming that all forms of spiritual teaching say basically the same thing, Raveena Nash researched the concept of illusion with care and integrity. Beginning with *A Course in Miracles*, where she says 'the idea of illusion is at the very heart of the teachings', she goes on to look at illusion in Buddhism and Hinduism. She includes well chosen quotations, and also transcripts of her own interviews with representatives of these religions.

She then considers the teachings of many well known spiritual authors, for example Mary Baker Eddy and Paul Brunton, to see what exactly they have to say on the subject.

The study of illusion is not just of academic interest, and the final chapters discuss the way in which we can follow a pathway of escape from the illusory world and wake up in the eternal reality of Heaven.

Although I don't agree with everything the book says, for anyone interested in *A Course in Miracles*, philosophy or comparative religion I highly recommend it.

IT'S ALL AN ILLUSION!

By M. Marsh

An inspirational read,

This exceptionally well-researched and well-written book will uplift and empower all spiritual seekers.

Packed full of insightful gems of wisdom acquired by the author's extensive knowledge of Eastern teachings and esoteric philosophy - as well as her dedication to the study of *A Course in Miracles* - this remarkable book will be an invaluable companion to all students of the Course, and a helpful introduction to those who are new to it. It would also make a wonderful gift to anyone interested in comparative religion or general spirituality and metaphysics.

An inspirational read--and a great buy!
