Reading this publication with the title League Of Dragons (Temeraire) By Naomi Novik will certainly let you know much more points.

Review

Praise for League of Dragons

“A satisfying conclusion to a remarkable series.”—Kirkus Reviews (starred review)

“Concludes with appropriate fanfare . . . Thrilling scenes of aerial combat are interspersed with detailed character work, moral complexities, and political maneuvering. Novik expertly balances a myriad of plotlines and characters and offers an extremely satisfying resolution.”—Booklist (starred review)

“This thrilling installment is packed with action and excitement, drawing the series to a delightful and satisfying close with plenty of twists, misadventures, and aerial combat along the way. . . . Concludes the series with a bang.”—Publishers Weekly (starred, boxed review)

“Novik’s fans won’t be disappointed.”—Library Journal

“Novik has accomplished something singular with her Temeraire series. It’s long. It’s sumptuous. . . . It’s a story about friendship that transcends not only time and class, but species. . . . League of Dragons masterfully wraps up so many plot threads and loose ends that had built up throughout the previous eight books [but] Novik never forgets that, as complex as her ideas and plot may get, the very simple notions of friendship and loyalty lie at the heart of the series.”—NPR

“League of Dragons sticks the landing. . . . And the book also has an abundance of the things that I love about the series: deep and inventive worldbuilding; fabulous action scenes; so many complex characters and relationships that have been built up over the series; humor (I literally laughed out loud multiple times); and the general project of taking the nineteenth century and making it better. . . . League of Dragons is an ending to the series, it is a definitive one, and it is a satisfying one. Go read it.”—Tor.com

“A satisfactory sendoff to one of the most thrilling and immersive fantasy series on today’s shelves . . . Novik packs in plenty of what made this series a hit in the first place, particularly acutely imagined battle scenes, high-stakes decisions and snappy dialogue from those delightful dragons, who have as much or more

intelligence as humans, coupled with the innocent self-interest of the average cat.”—Shelf Awareness

Praise for Naomi Novik and her Novels of Temeraire

“Novik’s influences run the gamut from Jane Austen to Patrick O’Brian, with a side trip through Anne McCaffrey. Her books are completely involving and probably addictive, their central conceit explored in clever detail with a great deal of wit and historical insight.”—San Francisco Chronicle

“These are beautifully written novels: not only fresh, original, and fast-paced, but full of wonderful characters with real heart.”—Peter Jackson

“A gripping adventure full of rich detail and the impossible wonder of gilded fantasy.”—Entertainment Weekly

“A new writer is soaring on the wings of a dragon.”—The New York Times

“A glorious series whose future status as a genre classic is now assured.”—SF Reviews

“If you’ve never read these novels, now is the time to start.”—io9

“Enthralling reading.”—Time

About the Author

Naomi Novik is the acclaimed author of the Temeraire series: *His Majesty’s Dragon*, *Throne of Jade*, *Black Powder War*, *Empire of Ivory*, *Victory of Eagles*, *Tongues of Serpents*, *Crucible of Gold*, *Blood of Tyrants*, and *League of Dragons*. She has been nominated for the Hugo Award and has won the John W. Campbell Award for Best New Writer, as well as the Locus Award for Best New Writer and the Compton Crook Award for Best First Novel. She is also the author of *Uprooted* and the graphic novel *Will Supervillains Be on the Final?*

Fascinated with both history and legends, Novik is a first-generation American raised on Polish fairy tales and stories of Baba Yaga. Her own adventures include pillaging degrees in English literature and computer science from various ivory towers, designing computer games, and helping to build the Archive of Our Own for fanfiction and other fanworks. Novik is a co-founder of the Organization for Transformative Works.

She lives in New York City with her husband, Charles Ardai, the founder of Hard Case Crime, and their daughter, Evidence, surrounded by an excessive number of purring computers.

LEAGUE OF DRAGONS (TEMERAIRE) BY NAOMI NOVIK PDF

With the acclaimed Temeraire novels, New York Times bestselling author Naomi Novik has created a fantasy series like no other, combining the high-flying appeal of Anne McCaffrey's Pern saga and the swashbuckling derring-do of Patrick O'Brian's historical seafaring adventures. Now, with League of Dragons, Novik brings the imaginative tour de force that has captivated millions to an unforgettable finish.

Napoleon's invasion of Russia has been roundly thwarted. But even as Capt. William Laurence and the dragon Temeraire pursue the retreating enemy through an unforgiving winter, Napoleon is raising a new force, and he'll soon have enough men and dragons to resume the offensive. While the emperor regroups, the allies have an opportunity to strike first and defeat him once and for all—if internal struggles and petty squabbles don't tear them apart.

Aware of his weakened position, Napoleon has promised the dragons of every country—and the ferals, loyal only to themselves—vast new rights and powers if they fight under his banner. It is an offer eagerly embraced from Asia to Africa—and even by England, whose dragons have long rankled at their disrespectful treatment.

But Laurence and his faithful dragon soon discover that the wily Napoleon has one more gambit at the ready—one that that may win him the war, and the world.

Good but not great

By Alek0

The ending seems rather rushed, and the whole thing seems somehow unfinished. Lots of things not really explored, quite a few loose ends left dangling (for example, Laurence's relationship with Jane Roland is given no consideration at all in his consideration where and how to settle, despite his enthusiasm for the renewal of the relationship), there was no confrontation with Lien and all of a sudden she seemed to be taking no active part in anything other than offending Temeraire with comments about "mongrel egg", etc. Writing is overall quite good as usual, its just that after such a png wait the book feels rushed and unfinished. I hope the author will consider adding a couple of short stories to flesh out unsatisfactory ending.

Solid, but not greatness

By C. A.

Neither brilliant nor a flop, League of Dragons ends the amazing Temeraire series. Parts of the book ring with Novik's wit and care - any time Laurence interacts with Napoleon; most of Temeraire's words. Other parts just feel rushed or not fully developed.

One of the most important character arcs in the series belongs to Laurence. In fact, a good deal of the series is his wrestling with the notions of duty, citizenship, vocation, government, fairness, etc. It is one of my favorite things about the series. However, in League, we do not get a satisfying reflection of Laurence's mental progress. It is a noticeable lack, particularly at the end of the book.

I would have wished for more - more inner depth, a continued exploration of character arcs, and a better conclusion to Laurence's personal life. Temeraire's, too, really, although he is not as neglected.

There was perhaps another half a book here that didn't get written. The end result is a decent story, with parts that ring with satisfaction, and parts that leave you feeling rushed through.

A hurried end

By Chris T Connelly

After following this series from the start I feel a bit cheated. I think Novik just wanted to be done with it. We left off right after the aftermath of the Russian invasion, and pick back up here with the pursuit. Following the real world timeline we have 2+ years of war and one big comeback. After getting 60% through the final book with nothing big happening, I started to get worried. I won't spoil it, but as it is alternate history I will say the ending is very different.

The usual themes of dragon/minority rights take center stage as well. There is one baffling sequence with Laurence early in the book that I'm assuming Novik put in to get our dragon hero off alone. Most of the dragons are silly stereotypes still, but whatever. Anyway it is done. Thank you for a fun story.
