A unique and moving work

By David D. Salisbury

Fiona Tinker's book Pagan Portals: Pathworking Through Poetry is one of the most unique works I've read in quite awhile. As someone who reads a great number of Pagans books on a constant basis, I found it very refreshing to read something like this - something that has truly not been done before.

Tinker's book focuses on the work of three poets who found their home in the British Isles: MacLeod, Yeats, and O'Sullivan - all early contemporary Pagans of centuries past who found their place in the world through their moving spiritual poetry. Tinker guides us through some of their poems that we can use as a guide for deeper connection via the tool of pathworking - the ability to traverse the inner realms.

Through this book, I found myself intrigued by classical poetry in ways I never have before. The ways in which Tinker weaves the work into the goal of deeper self-knowledge and spiritual revelation is revolutionary. I recommend this book to anyone who wishes to ignite the flames of the poet within. This is a book for all those who wish to look to the great creative works of the past in the hope for greater connection to the present self.

Poetry Between the Worlds

By Anemone

An excellent and practical guide to Celtic pathwork, ie meditation and interaction with the Fey. Yeats is one of my favorite poets. Use of his poems in this volume is a big plus for me. I have always believed that we are meant to speak directly with the spirits. Fiona Tinker does too. She blends literature and spirituality as they are meant to be. I highly recommend this book and will use it in my classes.
