Everything About Chinchillas

By Jack

"The Chinchilla Handbook" makes a great companion book to Dr. Vanderlip's standard, "The Guinea Pig Handbook," by the same publisher. Profusely illustrated by Michele Earle-Bridges to enhance the well-organized, straightforward text, this book covers everything the novice (and veterinarian) should know about chinchilla history, suitability as pets, anatomy, housing, feeding, behavior, health care and reproduction. This comprehensive book concludes with information about color inheritance and the fascinating world of showing chinchillas competitively. A helpful list of chinchilla affinity groups and recommended publications precede the detailed book index.

Among the many user-friendly features of the book are the well-organized tables and summary boxes which condense the essential facts about these charming little creatures into easy-to-find bites. The health management aspects of the book point the reader to the most common problems likely to be encountered with chinchillas, and practical advice about avoiding them and deciding when to seek the help of you local chinchilla veterinarian.

A great, but compact, book for chinchilla lovers and veterinary staff alike, and a welcome new addition to the Barron's series of pet owner handbooks. It goes alphabetically on my shelf next to Dr. Vanderlip's manual's on "Degus" and "Dwarf Hamsters."

This book tells you EVERYTHING you need to know!

By Monique J. Gagnier

This book tells you EVERYTHING you need to know!

I read this book cover to cover and found it was FULL of interesting facts and information about Chinchillas.

I recently took in two chinchillas that the owner could no longer care for. Before I bought this book, I knew nothing. Once I read the last page, I have since been able to teach others about proper Chinchilla care.

I HIGHLY recommend this book for every beginner!6 of 6 people found the following review helpful.

THE IS THE ONLY CHINCHILLA BOOK YOU EVER NEED

By Chia Hui Hsieh

"The Chinchilla Handbook" is the only chinchilla care guide you ever need.

This book is very detail about every single behavior that chinchilla have.

I have my chinchilla for almost two years, I was been looking around for some chinchilla book to read. This is the ONLY one I recommended!See all 21 customer reviews...
