This book was helpful in straightening out the mess I'd made with my Tylers, but it had scant information re my great great great grandfather and therefore nothing of his descendants - we are here.

Interesting

By Michelle Tyler

The book was very helpful while researching my family genealogy. i was able to trace my ancestors back to the 1600's and have since been able to go back to the 1300's thanks to the help of this book.

Excellent genealogical record.

By thomas ovitt

Numbering system is clear and easily understood, which enables one to search forward and backward in lineage without difficulty. Additionally, many persons have a short history of their occupation, military service, etc. which can be facinating.
