I will never forget this book

By Marti Alve

This book is one of the best books I have ever read to help me effectively learn to manage and achieve my goals. By using terminology used as his experience as a Navy Seal it gave me new anchors or words to use to instantly put myself in a state of calm or a state of action. When I was told to get this book I thought no way would I like it. But I had been studying Martial Arts after a life threat for six months. This was the best book in explaining to me that allowing others to constantly push my buttons was something I could not only stop but learn to see coming. Each event happens in the present moment and with proper planning, remaining focused and learning to take responsibility for my life I could hit those targets (goals). My life has changed from many things I did when I took responsibility. This girly girl is thankful for my UK military friend who recommended it. ...

Take Control of Your Life

By Evan Fleishman

Most of the books by former Navy SEALS you can take or leave with little after effect. I call them "mental bubble gum." This book is different. You can actually apply the strategies that "Mack" teaches here to actually making your life more productive. To getting things done. To living the best life you can by

following through with your dreams. I re-read this book every couple years to keep his teachings fresh. Can't recommend it highly enough. Why he hasn't written more books is a mystery.

Buy this book first

By Chad

This is the best book on the subject, period. Unlike some of the more esoteric books written by SEALs this one is simple to follow, easy to understand and infinitely practical. I have bought and read every single book written on this general subject and if I were only allowed to keep one of them as a reference, I would choose this one. If you are anything like me, you will go through 2-3 highlighters before you finish it!
